Capacity:

We have tables and stools to accommodate **20-25 children**. This is the number we **recommend** Downstairs is a smaller space once the toys, activities and

equipment have been set out. With that and the mixture of children and parents in attendance together, we find this a comfortable number and reduces the risk of injury.

We respect your privacy, So, you will be given the key to have full access to the studio and host your party. Please ensure that the parents are watching their children as they use the equipment to avoid injury and damages.

By Booking Fun 4 Kids studio you are agreeing to the following:

- You are responsible for removing any decorations and cleaning before you leave.
- We have fun colours throughout the studio. I ask that no decorations be adhered to the wall.
- There is no cooking permitted so of course take out must be your option such as Pizza Delight. You must bring along your own cutlery, plates, cups, napkins, tablecloths, etc.
- There will be tables and stools available in the cake room.
- **You agree to take on the responsibility to care for the equipment being used and will be liable for any damages made to the equipment or studio during your rental time.**
- You are responsible for cleaning once the party is completed (vacuuming, sweeping, packing away used equipment, and disposing of garbage would be the main expectations).
- Cleaning supplies, garbage bags, etc are located under the bathroom sink. We also have a cordless vacuum to make things easier.

Please treat the studio with respect. We work hard to ensure it is clean for parties and we would like for it to be left the same as it was when you arrived. We have had too many issues with the studio and equipment being neglected.

Thank you for choosing Fun 4 Kids Studio to celebrate your special day! We hope it is amazing!
